

**Covid 19 Update for April 9, 2022**  
**OWA Pickleball Complex**

With the lifting of Provincial Health Orders on April 8, 2022 here is a quick summary of how this impacts the OWA Pickleball Complex:

- Masks are recommended but now optional
- Proof of vaccination will no longer be required to book, enter or play
- Hand hygiene is still advocated – washing hands and/or use of hand sanitizer
- OWA complex washrooms are cleaned and disinfected one per day and additionally if dirty. Our complex Washrooms will close mid April and you will now be asked to use the washrooms over at the soccer center next door.
- The operations manager and/or volunteer attendants will disinfect all high touch areas once per day
- **If you are sick or experiencing any respiratory symptoms, please stay away and do not play until you are well.**

Thank you

The VPA Covid Committee
